

Trust In You

TJ Williams, Jordan Lambert

Verse 1:

No way to see where the wind will take us
we rest in Your wings safe in Your greatness
You are steadfast let us never be faithless
Guide us till at last in the clouds You save us

Verse 2:

You've always been and You always will be
Beginning and end, God of all things
You cover our sin, through You we are worthy
Here on our knees, we ask for Your glory

Chorus:

The day is coming closer, closer
When all will see You Father, Father
Fill us with Your holy fire
Give us Your heart so we shine brighter

Bridge:

When nothing turns out right I trust in You
When my heart's cold and dry I trust in You
I know you're by my side I trust in You
I know you're by my side I trust in You
